Breakout conversation: practice deep listening

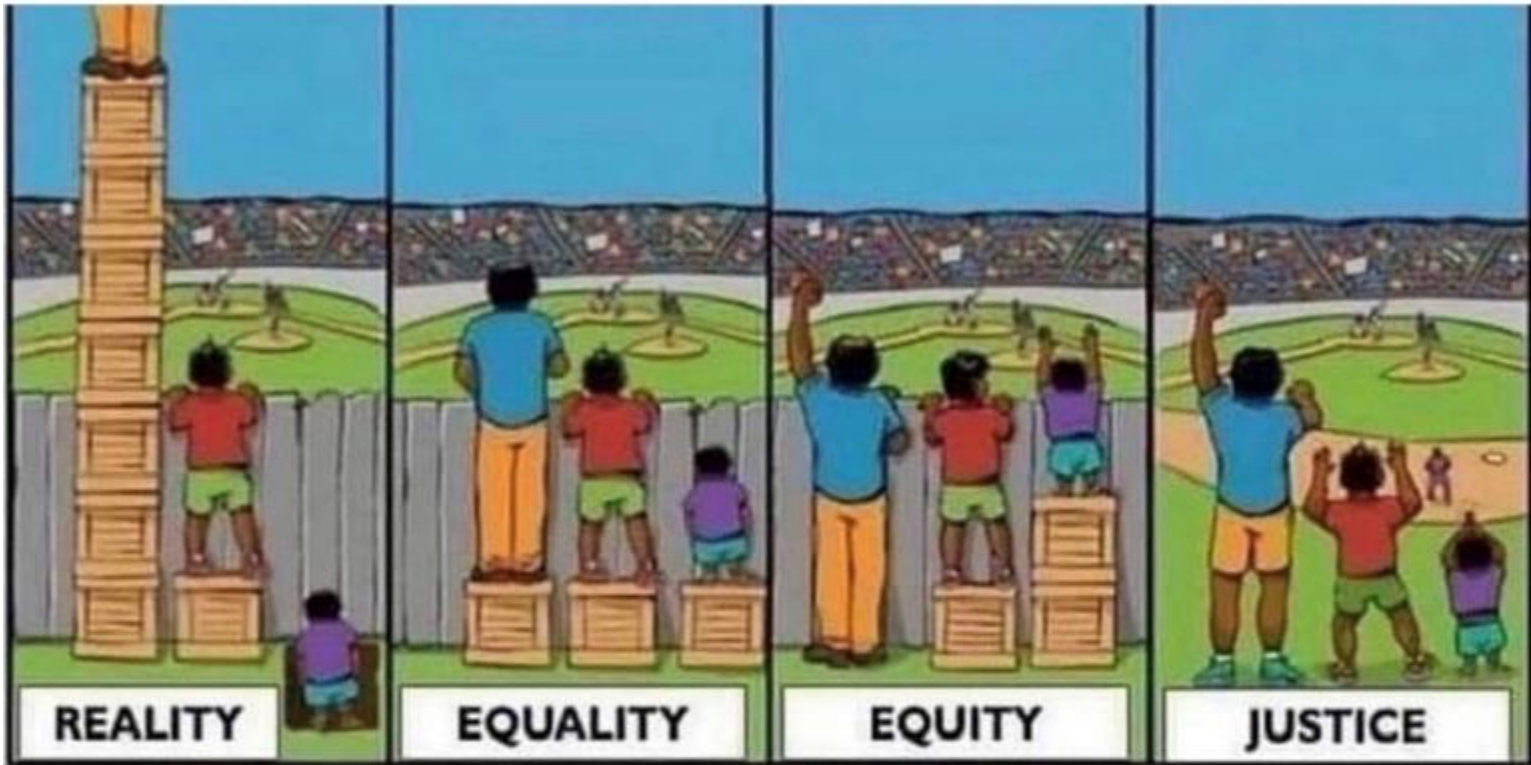

You don't have to have all the answers.

Just ask good questions.
And coach the quest for health.

REALITY

One gets more than is needed, while the other gets less than is needed. Thus, a huge disparity is created.

EQUALITY

The assumption is that everyone benefits from the same supports. This is considered to be equal treatment.

EQUITY

Everyone gets the support they need, which produces equity.

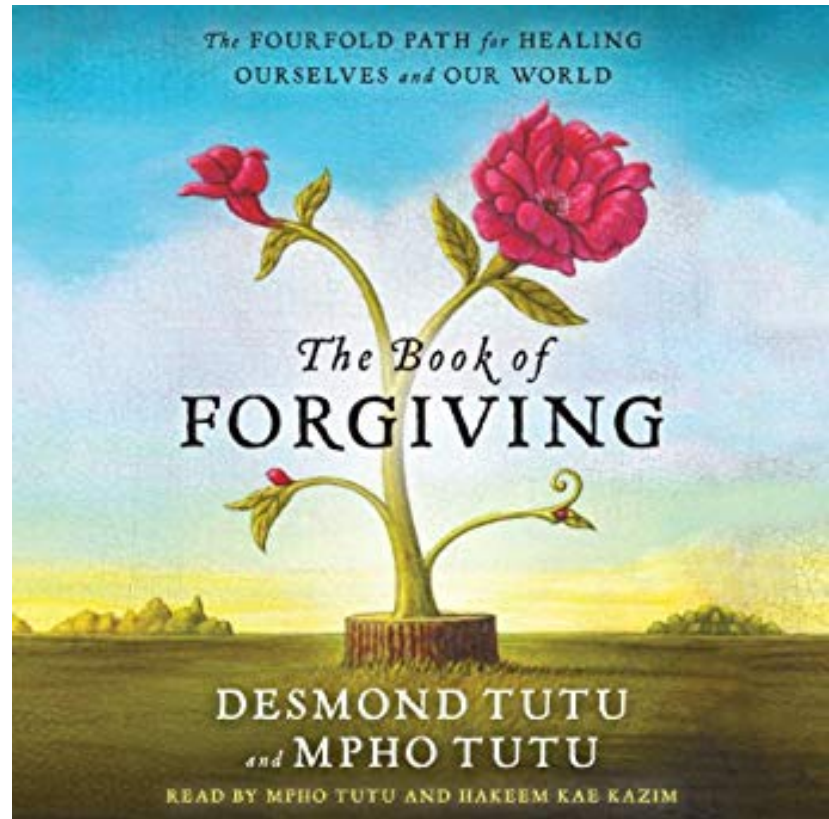

JUSTICE

All 3 can see the game without supports or accommodations because the cause(s) of the inequity was addressed. The systemic barrier has been removed.

Why do we have to talk about this stuff?

1. Tell the story
2. Name the hurt
3. Forgive
4. Renew or release the relationship

On History

Indians have history but we are not just a piece of history.

We are not past tense.

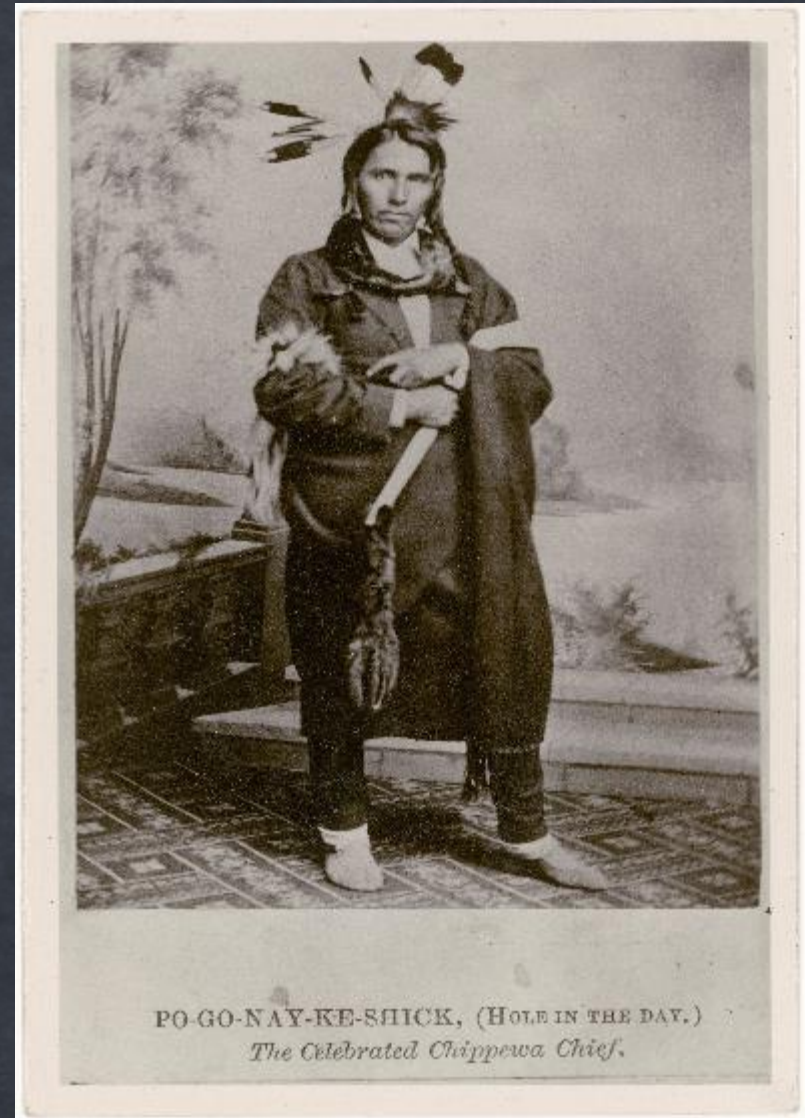

We are alive.

We are still here.

We have living languages and cultures.

We are ancient AND modern.

We are 10,000+ years of human history STILL in the making.

What do you know about
Indigenous people?

- What was the indigenous population of North America at the time of Columbus?
- What was the indigenous population in 1970?
- How many federally recognized tribes are there?
- How many treaties were made with native nations?
- How many were kept unbroken?

FOR OTHERS
DOES NOT MEAN
LESS RIGHTS
FOR YOU.
IT'S NOT PIE.**

How can I better interrogate my beliefs?

Chat: Drop your answer in the chat 

We can't be dysconscious. If you know there's something you don't know, find out:

Read a book, take a class, listen to a pod cast, watch YouTube videos, or talk to me any time!

Personal responsibility

What is my personal responsibility to address marginalization of indigenous voices?

But, if you judge a fish

whole life believing that
it is stupid”.** Albert Einstein

Healing & Reconciliation

What is healing?

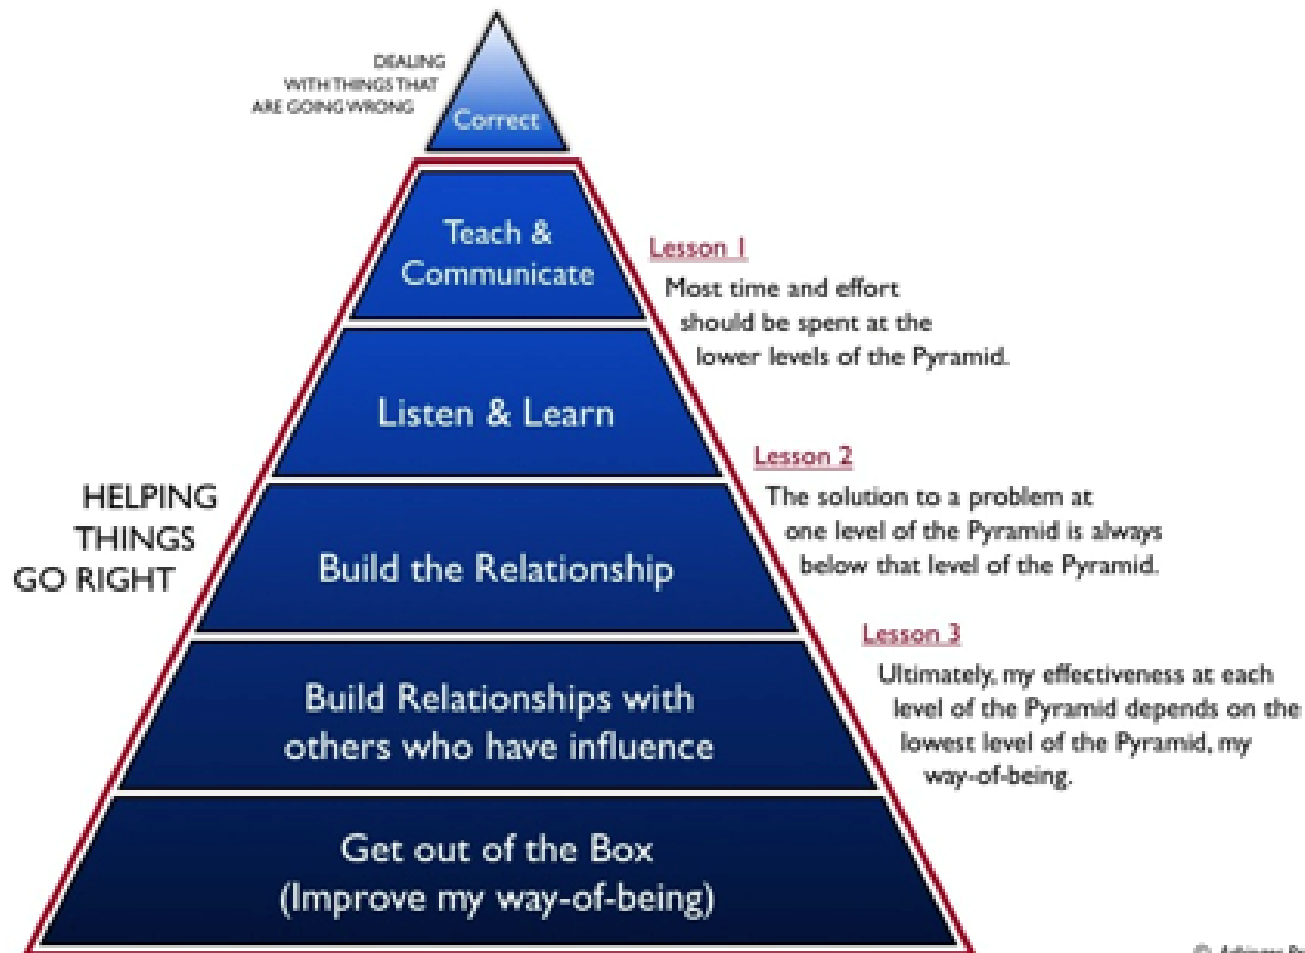

- The solution to addiction is not sobriety; it's **connection**.
- The solution to segregation is not integration; it's **belonging**.
- The solution to colonization is not decolonization; it's **indigenization**.
- The solution to hurting is not pain relief; it's **healing**.
